

Dear Sir/Madam,

Please allow me to introduce myself. I am Andres Arigon, from Barcelona, Spain. I've now been living and working in London for three years. However, I am thinking of a permanent move to Netherlands (Amsterdam) as soon as I find the perfect job there. As such I am absolutely open to relocate.

Currently, I am working as a UX/UI Designer and Front-End Dev. for an ecommerce company (Start-up). As I have mentioned before I have strong experience working as UX/UI Designer and Front-End Developer, which means that I can take charge of the entire process from the UX researching ,interface design, prototyping design, interaction design to development (HTML/CSS/JS) and optimization and testing.

I have more than three years of professional experience. In addition to my professional career I used to create and design websites as a hobby since I was a teenager.

Additionally, I have an excellent knowledge of HTML/HTML5, CSS/CSS/SASS and using a multitude of UX/UI software and resources such as: Photoshop, Adobe Experience Design, Invision, Google Analytics, etc. In addition I always work following the best web design practices and responsive concepts. Finally, I have an extraordinary ability to solve problems creatively and effectively.

To end, please feel free to visit my online portfolio on [www.andresarigon.com](http://www.andresarigon.com), where you can find my most relevant projects and more about me. I am looking forward to hearing from you soon,

My portfolio on: [www.andresarigon.com](http://www.andresarigon.com)

Yours faithfully,

--

**Andres Arigon**
